CUTE AND EASY CRAFTS FOR KIDS

BUNNY BOOKMARK DESIGN

(FLOWER) BUNNY BOOKMARKS

Easter Bunny Bookmark DIY – Materials:

- One paper clip per bunny
- White cardstock, Brown construction paper, green paper, origami paper
- Bakers twine
- Glue stick

On to our written step by step bunny bookmark how to –

The Basic Bunny Shape

Fold some light card in half (so you can cut two bunnies at the same time). Then start off by sketching your bunny – you will need two ovals, a smaller one for the body – but wide enough to hold a strip of tape to secure the paper clip and a bigger one for the head. Then add ears.

When you are happy with your design, cut out two bunny shapes the same size at the same time.

One on bunny – add our facial details (check ours for inspiration). On the second bunny, add a cotton tail. If you'd like a brown bunny, trace and cut two bunny shapes from the brown construction paper, and glue them onto the card stock. You can draw details on, or glue on pieces of colored paper for details.

Tape your paper clip onto the cotton tail bunny – make sure enough of the paper clip sticks out, so that it will fit over your book later.

Glue your two bunny sides together.

Hold in place with clothes pegs in need be.

You could already use your bunny as a bookmark at this point! The tangling Easter Eggs are not strictly speaking necessary!

The Easter Eggs (Or Flowers!)

Whilst the bunny dries, cut out 4 eggs (or flowers). If you have pretty paper like us, great.. if not, use white paper/ card and colour it! You can use the cardstock for your flowers and color them, or trace and cut four flowers from the origami paper and glue them onto the cardstock. You can also just cut flowers from the origami paper, but they'll be a little sturdier if you use the cardstock too.

Final Bookmark Assembly

Cut a length of Baker's twine – that is long enough to loop through your paper clip and fit the length of a book.

Loop around your paper clip.

Then glue between two eggs.

AND YOU ARE FINISHED with your Bunny Bookmarks.... aren't they the CUTEST!?
