How to make a Flower Corner Bookmark for Mother's Day (or Any Day!)

Once you have your basic GREEN Origami Bookmark, trace and cut out a flower shape or petals and a center part from the white cardstock or pink paper. If you use the white cardstock, you can color it however you'd like.

Decide how you'd like your flower to look, then arrange the petals and the center part and glue them together. You can decorate the flower however you would like. If you'd like to add a face, you can put the facial features on the center part of the flower.

If you'd like to color and add a tiny bee or ladybug, you can add that too, or whatever else you'd like. You can add more leaves, more petals, or whatever you want to make your flower look fancy!

Then you can glue your flower onto your green corner bookmark. It goes on top of the triangle that goes on top of the page of the book, as shown on the pictures. Then your bookmark is ready for you to use, or give to a friend!
